

Collaboration with Overseas Science Institutes – take the “Incredible Science Camp” for example

Hsiang We Chen, Stephanie Wu, National Taiwan Science Education Center, Taiwan

With the trend of globalization, there is more collaboration between countries. Under the impetus of the ASPAC organization, the National Taiwan Science Education Center began to communicate closely with relevant institutions in the Asia-Pacific region. In 2018, we developed the international camp curriculum---- Incredible Science Camp, which actively communicates with neighboring national science centers and youth through science, technology, culture and other topics. In 2018, there are two countries in Thailand and Malaysia Dome Science and Technology Museum total 72 adolescent students come to Taiwan for exchanges. This sharing explores the dissemination of scientific knowledge and cultural identity through participation in student feedback on curriculum and activity planning.
